16. Significant features of operating performance

The Company's revenues, underlying profitability and earnings per share all increased in the financial year.

The Company has maintained all existing clients, with a number taking up options to extend their contract terms and several increasing their hours of coverage. The Company is in discussions with / quoting for further opportunities including Event and Resource sector security.

Subsequent to the year end, and as advised to shareholders on 1 August 2017, the Company acquired the customer base of State Security (WA) Pty Ltd. The acquired customer base includes uniformed security work in retail and tourism locations and prestigious schools across the Perth area. Servicing educational establishments creates a new and exciting addition to the Company's current security portfolio.

The Company is strategically assessing further acquisition directions.

During the year the Company:

- a) The Company entered into a capital restructure with the vendors of MCS Security Group Pty Ltd (MCS Security) including a \$0.35m reduction in the post-closing payment to be made by the Company to those vendors. Net of a \$0.049m final adjustment of the post-closing payment calculation, this resulted in a credit of \$0.3m to the Consolidated Statement of Profit & Loss;
- b) became aware of a previously undisclosed \$0.28m of liabilities owed by John Boardman Pty Ltd (Intiga Security) incurred in the period prior to its acquisition by the Company. Such liabilities have been warranted by the vendor. That entity has negligible assets, does not trade and is in the process of being wound up. As such, the accounting recognition of the liabilities is not expected to impact the operations or cashflow of the Company. Nevertheless, having regard to accounting standards, the liability has been recorded in the Consolidated financial statements;
