

## Environmental Policy

At **MCS Security Group Pty Ltd**, we are committed to protecting the environment as it is integral to sustainable development. Sustainable development represents the balance between economic development, environmental protection and social responsibility.

To support this commitment, we will:

- Comply with legislative requirements and our environmental policies and those of the clients for whom we work;
- Conducting our operations in a manner that ensures work practices give the required consideration to sustainability and to the environment;
- Maintain and review measurable objectives and targets to ensure continuous environmental improvement;
- Maintain effective communication channels with our clients and our Workers and seek their feedback in relation to environmental matters;
- Provide the necessary resources for training and instruction of Workers in their environmental responsibilities;
- Ensure energy efficiency, optimum use of raw materials and the reduction of waste in all operations; and
- Respond to the challenges presented by climate change by identifying opportunities to reduce its carbon footprint.

Wherever possible, MCS will strive to identify and implement continuous operational improvements that will enhance its environmental performance and sustainability footprint.

The key responsibilities relating to MCS Environmental Policy include:

- The development and implementation of this policy rests with the executive team of MCS; and
- Commitment to this policy and the elements of the environmental management system rests with all Workers of MCS.
